COMPLETE TREATMENT SERVICES
FOR ALL HEATING & COOLING
WATER CIRCUITS

TECHNICAL INFORMATION BULLETIN

PRODUCT: WM8703 GLYCOL BUFFER/INHIBITOR

DESCRIPTION:

WM8703 is a concentrated liquid formulation designed specifically for use in Glycol/Water systems. WM8703 is a non-toxic environmentally friendly material suitable for use in both Ethylene and Propylene Glycol systems. WM8703 provides protection for both ferrous and yellow metals and unlike traditional Molybdate and Nitrite inhibitors does not contribute to toxicity. WM8703 technology is also designed to prolong the service life of the Glycol by minimizing the potential for acid degradation. WM8703 is formulated to provide a large excess of buffering capacity as well as inhibit corrosion.

SPECIFICATIONS:

Specific Gravity:	1.35
Color	Yellow
Odor	Musty
pH	>11.5

PACKAGING:

4 x 5.5 Kg jugs (case)
27 Kg pails
277 Kg drums
1350 Kg totes

PRECAUTIONS:

- For industrial, institutional and commercial use only
- Not for use in potable water systems
- Avoid contact with skin, eyes and clothing
- Do not freeze
- Consult MSDS and product label before handling
