***Even if your not a big company,
Hazardous Waste can be a big problem!***

If you purchase as little as 220 pounds, or about half a drum a month of any kind of hazardous waste, or all kinds put together - then you are by law a hazardous waste generator. You have to dispose of wastes in the required ways - and in most cases, you have to be able to prove you did.

Be careful who you ask to solve this problem!

Call Us at 1-800-567-9791

"We're good at solving problems!"
